

Can you spot the dot?

... probably not

# The only thing dot changes is the way you hear

Unparalleled sound performance in the tiniest form possible means that the only thing you'll notice about dot by ReSound is an immediate improvement in your hearing.

That's because dot by ReSound has taken the industry's best technology

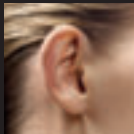

and encased it in a tiny hearing instrument that combines invisibility with lightweight comfort. So you can change your hearing without changing your looks.

... here it isn't

# The most advanced technology for the best hearing experience

dot by ReSound contains an industry-leading sound processing platform known as Sound by ReSound™.

At the heart of Sound by ReSound are tried and tested components that combine to give you a clear, stable and comfortable hearing

experience; much the way your hearing used to be.

## **Don't miss out**

From the softest whisper to more intense sounds, the digital amplification system in Sound by ReSound gives you incomparable audio quality across the broad spectrum of listening environ-

ments, meaning you'll pick up everything that's being said without missing a word. This is all made possible thanks to the latest miniature speaker design which delivers sound directly into the ear. In fact it's so small you'll hardly notice it's there.

... here it isn't

## dot by ReSound – key features and benefits

- Ultra-fast delivery of pure, precise sound
- Extraordinary clarity and performance
- Subtle blend of cosmetics and ergonomics
- Fully automatic for hassle-free operation
- Range of colours and tones to personalise your dot

## The most attractive hearing instrument you'll never see

Consumer technology the world over, from mobile phones to personal music players, is becoming smaller and more powerful. It's no different in the world of hearing.

dot by ReSound is a radical improvement on hearing instrument size and performance; with a revolutionary design that combines invisibility with lightweight comfort. The only thing

your friends and family will notice is less misunderstanding and more communication.

# Choose the dot that suits you

Not only can you vastly improve your hearing with dot by ReSound, you can also complement your style. dot by ReSound is available in a range of differ-

ent colours, from brilliantly bold hues to discreet hair tones. It's just a pity no one will see them.

## Personalise your dot

Choose between 14 different colours. Ask your hearing care professional to show you the full range of models.
