Smart super power hearing

ReSound ENZO²[™] brings Smart Hearing[™] technology to people with severe and profound hearing loss. In fact, it's the most powerful super power hearing aid available today. With top-rated sound quality, a durable design and more ways to connect to your world, it's a hearing experience like no other.

ReSound ENZO² is not only the smartest super power hearing aid on the market, it's the smallest. It also features iSolate[™] nanotech, an ultrathin polymer shield, that protects against moisture, wax and dust.

High Power

Super Power
98 (675)

*“Because I’m in control,
I hear a lot more now.”*

Stefan Kodjie, 40

*Quality Manager and super power user
living with severe hearing loss since infancy*

ReSound ENZO² features:

Binaural Directionality II helps you zoom in on the sounds you're most interested in, while maintaining a sense of what is going on around you. This supports your natural ability to focus on speech, even in the noisiest situations.

Spatial Sense emulates the way your outer ear channels sound to your inner ear, supporting your ability to detect where sounds are coming from so you experience a more natural sense of your surroundings – with the highest possible sound quality.

DFS Ultra with Music Mode feature prevents whistling, while maintaining the volume level you need to hear clearly. And, Music Mode gives you back the pleasure of listening to music the way it was meant to sound.

Direct audio streaming, ReSound ENZO² is the only Made for iPhone super power hearing aid, which means you can stream stereo sound directly to your hearing aids with no intermediate device, just as if you were wearing wireless headphones.

CONNECTIVITY

Flemming and Louise Brasen
*Father and daughter,
both super power users*

Working for you every day

ReSound ENZO² is offered as a powerful 675 battery super power hearing aid, and if you need slightly less gain, the same benefits are delivered in a smaller 13 battery design.

Whichever design suits you best, every component of ReSound ENZO² is coated with iSolate nanotech, making the hearing aids robust and reliable.

The choice is yours

ReSound ENZO² hearing aids are available in 10 different colors, so you're sure to find the perfect fit.

ReSound wireless accessories

With ReSound ENZO², you can connect directly to all ReSound wireless accessories, giving you direct audio streaming, discreet control and improved speech understanding in noise or over distance.

Connect and interact wirelessly

You can easily and intuitively access phone calls and any audio streaming that your iPhone®, iPad® and iPod® touch have to offer, including FaceTime®.

And if you don't have an iPhone, you can still stream sound to your hearing aids. Simply pair any Android™ smartphone or Bluetooth-enabled phone with the ReSound Unite™ Phone Clip+.

Personalize your hearing experience

Quickly change the volume to suit what is happening around you. Personalize the sound you want to focus on. Find your hearing aids if you misplace them. Customize your settings discreetly, as if you were just checking your phone.

With the award winning ReSound Smart™ app, you can fine-tune the settings of your ReSound ENZO² hearing aids from your iPhone, select Android models, or even an Apple Watch.

“I hear a lot more now ... different sounds I didn't hear before.”

Stefan Kodjie, 40
Quality Manager and super power user living with severe hearing loss since infancy

ReSound Smart app also includes three new features* for ReSound ENZO² to optimize your listening experience.

Speech focus

The speaker's words sound clearer and you can choose exactly what to listen to.

Comfort in noise

Reduce noise levels in loud environments so listening is more comfortable and speech easier to understand.

Comfort in wind

The wind filter reduces the amount of intrusive wind noise on a windy day for maximum listening comfort with minimum effort.
